

**AMENDMENTS to the DRAWINGS**

No amendments or changes to the Drawings are proposed.

**REMARKS****Nature of the Amendment**

We gratefully acknowledge receipt of the Notice of Allowance in this patent application. This paper presents amendments under 37 C.F.R. §1.312 in order to conform the Title, Abstract and/or Summary of the Invention to the claim allowed in this application.

In particular, we are replacing the ABSTRACT and the SUMMARY OF THE INVENTION with paragraphs conforming to the independent claims, and we are moving several paragraphs from the SUMMARY OF THE INVENTION to the beginning of the DETAILED DESCRIPTION. No new matter is added, information is merely being rearranged.

According to MPEP §714.16, the examiner:

"has authority to enter amendments submitted after Notice of Allowance of an application which embody merely the correction of formal matters in the specification or drawing, or formal matters in a claim without changing the scope thereof, or the cancellation of claims from the application, without forwarding to the supervisory patent examiner for approval."

Because the amendments presented in this paper include only changes of formal matters in the specification, we believe the examiner is authorized under MPEP § 714.16 to make the amendments presented herein. No new matter is added by these amendments, and no amendments to the claims are presented.

We respectfully request that these amendments be entered in accordance with 37 C.F.R. §1.312 under the Examiner's authority as specified in MPEP § 714.16. The Commissioner is hereby authorized to charge or credit Deposit Account No. 09-0447 for any fees required or overpaid.

Respectfully,

*/ Robert Frantz /*
